STRENGTHS

- Autonomous / Self-taught
- Strong interpersonal skills
- Rigorous / Multi-tasking
- Adaptable / Knowledge enthusiast
- Team player

HOBBIES

- Cooking
- Automotive
- 3D Design

Nicolas Planche

WEB & MOBILE DEVELOPER $\${FULL-STACK}$

Passionate Full-Stack Developer, I design high-performance, modern, and user-focused applications. I work on both front-end and back-end, with particular attention to code quality, maintainability, and user experience. Curious, autonomous, and committed, I can quickly adapt to technical challenges and team dynamics.

EXPERIENCE

Full-Stack Developer - SportCorico | 2 ans • 2023 - 2025

Flutter • Laravel • Nuxt.js – iOS • Android • Web

- Development of web & mobile applications: HelloAsso integration, dynamic forms, event management, notifications, etc.
- Performance optimization (Flutter Web, Laravel API) and error handling (Sentry).
- Project workflow implementation: sprints, CI/CD, PR, documentation.
- Development of a white-label app (FC Lyon).

Full-Stack Developer - Freelance | 3 ans • 2022 - actuel

Flutter • Laravel • Nuxt.js • ReactJs • NodeJs

- Development of showcase websites, e-commerce platforms, mobile app and back-office dashboards.
- Flutter mobile applications (iOS/Android): UI, API integration, store deployment.
- Frontend : Vue.js, React, Tailwind, Shopify (Liquid).
- Backend : Laravel, Node.js, Shopify, API creation & business logic.
- Performance optimization, SEO, and production bug fixing
- Client management: scoping, project monitoring, maintenance.

PROJECTS

PRO Da Auto Sport | NuxtJs, Laravel, Flutter, TailwindCss

Full creation of a responsive showcase website and mobile app for a BMW/MINI garage, integrating presentation, services, and online quote requests.

Web site : [Cliquez ici](#)

IOS app : [Cliquez ici](#)

Android app : [Cliquez ici](#)

OPEN SOURCE Amazing Icons | Dart, Flutter

Creation and release of an open-source **Flutter package** with more than **5,000 vector icons**.

Package pub.dev : [amazing_icons](#) **All Icons WebSite** : [amazingicons.dev](#)

PRO FC Lyon + | Laravel, Flutter, OneSignal, Filament

Development of the club's official application, offering supporters access to exclusive offers and discounts through a network of partners.

App IOS : [FC Lyon iOS App](#)

PERSO Find & Watch | NuxtJs, Laravel, Flutter

Mobile application centralizing series and movies, creating personalized lists, notifications on new products and changing platforms.

WebSite : [find-and-watch.com](#) **App IOS** : [Find & Watch iOS App](#)

PERSO Hinti (projet scolaire) | Laravel, Flutter, Meilisearch, Redis, OpenAi

Development of a mobile nutritional tracking application with personalized programs, addition of food via QR code scan (OpenFoodFacts), smart search (Meilisearch), tracking calendar and recipe creation via AI according to the ingredients available in the fridge.
